FloorTools

The 36-N5ND32 and its cousin, the 38-NE00 wheeled-version, offer functionality on a variety of floor surfaces, moving from hard floor to carpet with the use of a foot pedal. Both tools have a durable metal backplate support with longer brushes. The wheeled version has a rubber blade in back of the bottom, and a special plate with soft pads to add for sensitive wooden floors. A double swivel neck keeps the tool parallel to the floor and adds to its maneuverability in tight places. Type 36-N31 is a double-inlet, low profile floor tool as seen on TV! Colour on request!

Code No.	widht cm	Qty/Box	Description
36-N5ND32	27	40	Combination tool w. pedal
38-NE00	26	20	Combination tool w. pedal/wheels

Commercial FloorTools

Multipurpose nozzle with accessories for commercial and industrial floor cleaning. The different accessories are easily attached to the frame-tool and locked by slide-switches.

Code No.	widht cm	Qty/Box	Description
