Art. S05

Universalkreissägeblätter für Platten.

Positiver Spanwinkel.

Für den Schnitt von Platten jeder Art (MDF, Spanplatten, Tischlerplatten, auch beidseitig beschichtet).

Bei beschichteten Platten wird der Einsatz von Vorritzsägen empfohlen.

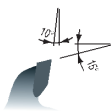

Universal circular saw blades for cutting panels.

Positive cutting angle.

Suitable for cutting MDF, plastic laminated, hardboard and multilayer panels.

We always recommend using a scoring saw blade when cutting double faced laminated panels.

Universal circular saw blades for cutting panels.

SPEEDFACE COATED

HIGH PERFORMANCE ON PANEL SIZING CUTTING
with lower friction coefficient!

Suitable for cutting MDF, plastic laminated, hardboard and multilayer panels

TOP CUTTING PERFORMANCES BOTH ON MANUAL AND AUTOMATIC MACHINES!*

BENEFITS

Lower cutting friction and longer blade life (thanks to the coated teeth)

Very high productivity (2 times more than traditional blades)

No wood dust sticking

TEST THIS BLADES... YOU WILL BE IMPRESSED!!!

After careful tests carried out at major customers we have verified that these blades reach very high cutting performances (more than 2 times than a traditional saw blade). The teeth are also coated!

DON'T MISS THIS CHANCE!!!
