REID LIFTING

Product Brochure

❯ Contents

Making light work of **lifting** and **lowering**.

Since 1996, REID Lifting have been combining innovative design with expert engineering to create lightweight, portable, aluminium lifting systems that help our customers to achieve their operational and safety objectives efficiently and effectively.

From our headquarters in Monmouthshire, in the United Kingdom, we expertly engineer our systems through the use of lightweight aluminium as an alternative to steel, setting a precedent for innovation and successful experimentation, leading us to become one of the global pioneers in lifting technology today.

Many of our products are patented and have become the industry-standard for lifting solutions, trusted by many leading companies in more than 50 countries around the world.

We have been duly recognised for our innovative contributions to the lifting industry, winning four prestigious Queens Awards for Innovation and International Trade,

as well as being recognised as one of the UK's leading exporters.

Here at REID Lifting, we welcome the opportunity to work with clients to successfully meet your lifting needs from our core range of products. Should you require a special solution for a unique circumstance, we can also develop custom solutions to help meet your needs.

❯ Our icons explained

On each product page, these icons will help you understand more about the system, its capabilities, and limitations.

Capacity
Each system will have a capacity rating clearly stated along with its serial number for traceability. The WLL rating should NOT be exceeded under any circumstances.

People required for assembly / operation
An indicator of the people typically required to safely assemble and operate the system in normal situations within manual handling guidelines. Every lift should be supported by the relevant risk assessment and method statement prior to the activity.

Transportation weight / method
The typical total weight of each system for transportation. Weights may vary marginally. The format explains whether the system is 'bagged' or 'flat packed' for easy and safe storage, handling and transportation.

EN795 certified for personnel lifting
Fully certified temporary anchor point meeting strict requirements of EN795.2012 for protection against falls from a height and personnel lifting [as part of an EN363 compliant system].

ATEX certified
The capability of equipment to work within an explosive atmosphere. Please contact REID for further details.

Around the world

We have a carefully selected network of professional and highly experienced distributors and re-sellers across the globe. We have key distributors in the following countries:

- USA
- Canada
- France
- Germany
- Switzerland
- Italy
- Sweden
- Australia

For more information about our partners and how we can to connect you for local service please email **enquiries@reidlifting.com**

Who we work with

We have built an exceptional reputation for designing high-quality and resilient products for use across a diverse range of industries including;

- Water and Wastewater
- Oil and Gas
- Height Safety
- Petrochemical
- Renewable Energy
- Aviation
- Automotive
- Construction
- Food Processing
- And even Museums, where our products are trusted for lifting priceless pieces of art.

Our expertise knows no bounds and, as a result, our products are used far and wide in industries throughout 50 countries around the world. There are no limits to the industries we serve.

Dedicated training

We're not just product providers.
It's important to us that our
products are used as effectively
and safely as possible, which is
why we offer training for our full
range of systems.

Our training is tailored to your needs and
designed to make sure everybody knows
how to safely assemble and use our systems.
If you would like to find more about our
training sessions, contact us on
training@reidlifting.com

Head to our website where you can find a
range of informative resources from product
assembly videos to Assembly & Operation
Guides all of which are designed to support
our customers in safely and effectively
operating and assembling our products.

REIDLIFTING.COM

Quality & Safety, Guaranteed

All of our products are rigorously tested for our customers benefit before they leave our factory in order to guarantee superior performance. REID products are built to last.

We operate an Integrated Management System certified by a UKAS accredited third party certification body to:

> ISO 9001:2015 – Quality Management System

> ISO 14001:2015 – Environmental Management System

> ISO 45001 – Health & Safety Management System

All REID products are designed by engineers with many years' experience in the lifting industry which underpins the Integrated Management System.

All products undergo thorough testing to prove functional and safety compliance. This includes working with Notified Bodies to prove compliance with National and International Standards such as EN795:2012.

REID are also proud to be a member of the Lifting Equipment Engineers Association.

Product Warranty

REID products are guaranteed for 10 years (see terms and conditions for further details)

Gantry Systems

Innovative, convenient and easy to assemble, our two Gantry systems – the **PORTA**GANTRY and **PORTA**GANTRY RAPIDE – effortlessly enable safe lifting to take place in a wide range of working environments.

PORTAGANTRY®

Engineered designs and bespoke
sections reduce weight, providing
lightweight portability

Carrying WLL of up to
5000kg for goods lifting

Ease of height adjustment
with integrated ratchet

Approved for up to 5 persons
for fall protection applications

Ease of assembly including
height and span adjustment

Stabiliser legs for ease of
transportation and stowage
of the A-frame

Ergonomic 360° swivel-
locking castors, as standard

This product is patented

* Visit our website for our product assembly videos to find out how
easy our **PORTA**GANTRY range can be assembled in the field.

Our top quality and highly durable **PORTA**GANTRY is lightweight and extremely strong. This portable system can be manually assembled, using just four bolts and can safely lift up to 5000kg, making it the ideal system for multiple applications.

Key features

- EN795:2012 Certified
- ATEX Certified
- Can support goods and personnel lifting;
  - Goods WLL of up to 5000kg
  - Personnel WLL of up to 2500kg
- Suitable for up to 5 persons for fall protection applications
- Beams and A-Frames can be interchanged
- Ergonomic 360° swivel-locking castors, as standard
- Ease of assembly including height and span adjustment
- Anodised for increased corrosion resistance
- Engineered designs and bespoke sections reduce weight, providing lightweight portability

Configurations

The **PORTA**GANTRY is available in a range of configurations and can be customised in line with specific requirements (subject to WLL rating).

The **PORTA**GANTRY has the ability to be moved under load. (Subject to detailed instruction and supervision by a competent person).

500-5000KG WLL   **1-4 PERSON ASSEMBLY**   **92-294KG FLAT PACK**   **EN795 CERTIFIED**   **ATEX CERTIFIED**

	S & M versions also available as custom systems					M = Manual & R = Ratchet			WLL 5000kg dimensions systems are shown using the deeper 'D' section beam				
	Dimensions use standard Master Link Trolley, other options available to increase resulting height of lift (HoL) and to assist with load movement. *Weight includes stabiliser legs.												

PORTAGANTRY Trolley Options

Gated Trolley [Patented]

Our Gated Trolley is expertly designed to incorporate a rotating plate and quick release pin for easy and rapid attachment to the beam. This unique and innovative product enables multiple trolleys to be attached to beam after the Gantry has been fully assembled and can also be locked in position on the beam.

Gear Driven Trolley

The Gear Driven Trolley is fed on to the end of the beam during the assembly of the Gantry. It is designed to enable a load up to 2000kg to be moved safely along the beam in a controlled manner once lifted. Different chain lengths are available.

Master Link Trolley

The Master Link trolley is fed on to the end of the beam during the assembly of the Gantry. The master link enables a wide range of hoists to be easily attached for lifting operations. The trolley can also be locked in position on the beam.

Closed Coupled Trolley

Our Closed Coupled Trolley is designed for use where there is a height restriction that requires an incremental increase in the height of lift. The Closed Coupled Trolley is fed on to the beam during the assembly of the Gantry. This trolley can accommodate a wide range of hoists due to it's large oval opening and can be locked into position on the beam.

* The Gated Trolley is tested to and meets the requirements of EN795.2012 and IRATA ICOP for fall protection applications. Each trolley is rated 2500kg for this purpose.
Master Link Trolley

* We offer a range of Geared and Integrated Hoist trolleys for more information contact your REID representative.

PORTAGANTRY®**Accessories**

Gantry Assembly Aid

The Gantry Assembly Aid has been designed to aid in the ease of erecting and dismantling our **PORTA**GANTRY systems. It is ideally suited to our intermediate and above-height gantries. The Assembly Aid reduces installation time, as well as manual handling requirements.

Product Code	Description
RAPG000200	Assembly Aid Only
RAPG000200 RAPG000201	Snap Hook Strop Kit for Intermediate and Tall Gantry Systems Assembly Aid
RAPG000200 RAPG000202	Snap Hook Strop Kit for TC4 and TC3 Gantry Systems Assembly Aid
RAPG000200 RAPG000203	Snap Hook Strop Kit for TC2 and TC1 Gantry Systems Assembly Aid
RAPG000203	Bag for Assembly Aid Kit

Directional Lock Castors

Our Directional Lock Castors allow for our swivel castors to be made into a fixed castor temporarily - by locking the swivel head but not the wheel which means the castor moves in one direction. Directional locking castors are great for cornering or pivoting.

Product Code	Description
RSCA000008	Porta Gantry Directional Lock Castors - up to 3000kg [Set of 1]
RSCA000010	Porta Gantry Directional Lock Castors - up to 5000kg [Set of 1]

Trolley Rope Control System

Our Rope Control System allows precise control over the movement of the load trolley from a safe location next to the A-frame. By utilising a series of sheaves and a winch a mechanical advantage is added to the system reducing the effort during operations. This system not only adds a method of controlled movement of the load but also removes the need to manually handle the lifted load increasing the safety of the system.

Product Code	Description
PGRC00001	Rope Control System for use with PG Small with A or B section beam
PGRC00002	Rope Control System for use with PG Small with D section beam
PGRC00003	Rope Control System for use with PG Intermediate with A or B section beam
PGRC00004	Rope Control System for use with PG Intermediate with D section beam
PGRC00005	Rope Control System for use with PG Tall with A or B section beam
PGRC00006	Rope Control System for use with PG Tall with D section beam

Wind-up Jack Legs

Our Wind-up Jack Legs offer infinite additional height adjustment up to 250mm. The Wind-up Jack Legs offer independent adjustment for use as a levelling system on uneven ground. The Jack Leg retracts beyond the base of the castors and so does not restrict the movement of the system.

| Product Code	Description
PGWS00001U	Porta Gantry Universal Wind Up Jack Leg WLL5000kg Set of 4
PGWS00002U	Porta Gantry Universal Wind Up Jack Leg S&M up to 2000kg Set of 4

❯ Shackled Cheek Plates

The shackled cheek plate has an integrated shackle pull point which allows for the attachment of a mechanical aid such as a chain hoist to control the movement of a loaded trolley along the beam. By utilising a chain hoist to connect the trolley to the shackle the effort required to move a load during a lifting operation will be significantly reduced. This enables controlled movement of a load and ensures gantry stability when traversing a load along a beam.

Product Code	Description
RAPG000109	Porta Gantry Cheek Plate & Shackle Pull Point Kit
❯ Winch Conversion Kit

Our Winch Conversion Kit enables the **PORTA**GANTRY to be used with a wide range of winches or SRLs suitable for goods or personnel lifting. The kit comes with new cheek plates and a winch mounting column to allow for our gantry beams to be prepared to accept a sheave carrier and A-frames a wide range of winches.

| Product Code	Description
RAPG000077	Porta Gantry A-frame Conversion Winch Ready Kit

❯ Festoon System

Our Festoon System has been designed to keep electric hoist power cords safely away from lifting operations and stored neatly along the gantry beam. The Universal Festoon Kit includes all the required components including; trollies, wire rope and fasteners. By then adding the power cable the system is ready for use.

Product Code	Description
RAPG000004	Porta Gantry Festoon System and Brackets only [Advise Beam Length]
❯ Ratchet Height Adjustment

Our Ratchet Height Adjustment provides a mechanical aid for raising and lowering the height of the Gantry beam. The Ratchet Height Adjustment comes as a standard features on a range of A-frames and can be added as a feature on our entire **PORTA**GANTRY product range. See details in dimensions table.

Product Code	Description
RSPG000002	Porta Gantry Tall Ratchet Kit
RSPG000026	Port Gantry Intermediate Ratchet Kit

❯ Lobed Cheek Plates

Our Lobed Cheek Plates allow for ease of assembly when adjusting the operating span of the **PORTA**GANTRY system. The modified cheek plates allows the clear operating span to be adjusted by moving one frame in, whilst still allowing the standard assembly methods to be observed.

Product Code	Description
RSPG000035	Porta Gantry Lobed Cheek Plate up to 5000kg [Each]

PORTAGANTRY RAPIDE ®

Integrated wheel design that folds with the frame for ease of transportation

Can support goods and personnel lifting

Available in 3 height-adjustable versions (up to 2.9m lifting eye height)

Can accommodate a range of beam lengths up to 4 metres

Anodised for increased corrosion resistance

Engineered designs and bespoke sections reduce weight, providing lightweight portability

REIDPORTAGANTRY RAPIDE
This product is patented

* Visit our website for our product assembly videos to find out how easy our **PORTA**GANTRY RAPIDE range can be assembled in the field.

Our unique and innovative **PORTA**GANTRY [RAPIDE] is a height-adjustable, foldable aluminium gantry designed for rapid deployment. Capable of an impressive WLL of up to 1000kg. This system can be assembled and disassembled by just one person within a minute without the need for any tools. The **PORTA**GANTRY [RAPIDE] is the perfect solution for confined space access scenarios due to its unique features and ability to lift equipment and personnel.

❯ Key features

- ❯ EN795:2012 Certified
- ❯ ATEX Certified
- ❯ Can support goods and personnel lifting;
  - ❯ Goods WLL of up to 1000kg
  - ❯ Personnel WLL of up to 500kg
- ❯ Suitable for up to 3 persons for fall protection applications
- ❯ Integrated wheel design that folds with the frame for ease of transportation
- ❯ Available in 3 height-adjustable versions (up to 2.9m to the lifting eye)
- ❯ Can accommodate a range of beam lengths up to 4m
- ❯ Anodised for increased corrosion resistance
- ❯ Engineered designs and bespoke sections reduce weight, providing lightweight portability

❯ Configurations

The **PORTA**GANTRY [RAPIDE] is available in a range of configurations and can be customised in line with specific requirements (subject to WLL rating).

250-1000KG WLL **1-2 PERSON ASSEMBLY** **37-69KG COMPACT STORAGE** **EN795 CERTIFIED** **ATEX CERTIFIED**

PORTAGANTRY [RAPIDE]® **Accessories**

Sheave Carrier

Sheave carriers enable the use of winches or retrieval fall arrest devices with the **PORTA**GANTRY [RAPIDE]. They are detachable and can incorporate either one or two pulley wheels to act as guides for cables or ropes.

Master Link Trolley

Our Gated [patent pending] Master Link Trolley can be used when additional headroom or clearance is not an issue and the convenience of a large opening for the attachment of various hoists is preferred. This innovative product enables multiple trolleys to be attached to the beam after the system has been fully assembled and can also be locked in position on the beam.

Close Coupled Trolley

Our Gated [patent pending] Close Coupled Trolley can be used when additional headroom or clearance is needed below the beam. This trolley can be attached to the beam after the system has been fully assembled.

Sheave

Sheaves can be retroactively fitted to the **PORTA**GANTRY [RAPIDE] enabling winches or retrieval fall arrest devices to be attached to the trap plate of vertical column.

Winch Bracket

Winch brackets can be attached to the trap plates or to the upright, depending on the winch and its orientation. REID offers a wide range of winch brackets for common goods and personnel winches and retrieval fall arrest devices. Due to the wide range and our ability to manufacture custom brackets, contact us with your requirements.

Product Code	Description
RAPGR00032	Rapide Universal Sheave and Ball Lock Pin Set

Winch Bracket

We offer a wide range of Winch Brackets, which are designed to support winches for both goods and personnel lifting and retrieval fall arrest devices. Contact REID with your requirements and find out how we can support you.
> Davit Systems

We offer three different types of Davits and multiple sockets for the widest range of applications, all of which are designed to make light work of lifting and lowering.

❯ **T**DAVIT®

REID TDAVIT®

Can be operated and
assembled by one person,
no tools required

Clean, anodised finish for
increased wear resistance

A range of column heights and beam
lengths for simple customisation

Capacity of up to 600kg
for goods lifting

Can be rotated 360° under
a full load

This product is patented

**Winch and hoist sold separately

Our **T**DAVIT is lightweight, portable, and as well as a wide range of standard sizes can be custom-designed and manufactured to specifically meet our customers' individual needs. Truly pioneering, it offers a lifting capacity of up to 600kg and 360° rotation under a full load.

❯ Key features

- ❯ EN795:2012 Certified
- ❯ ATEX Certified
- ❯ Can support goods and personnel lifting;
  - ❯ Goods WLL of up to 600kg
  - ❯ Personnel WLL of up to 300kg
- ❯ Can be operated and assembled by one person, no tools required
- ❯ Can be rotated 360° under a full load
- ❯ Designed with a universal kingpin which is compatible for all REID sockets
- ❯ Clean, anodised finish for increased corrosion resistance
- ❯ A variety of attachments for a range of applications
- ❯ Engineered designs and bespoke sections reduce weight, providing lightweight portability

❯ Configurations

The **T**DAVIT is available in a range of configurations and can be customised in line with specific requirements (subject to WLL rating).

How To Specify A TDAVIT

Select a beam option from the table based on the radius you require. Each **T**DAVIT has two radius options A or B which is determined by the beam position [refer to the dimensional drawing on page 30].

Be aware that larger radius beams reduce the working load limit of the **T**DAVIT.

Select your column option from the dimensional table based on the height of lift you require. Column option 1 is our shortest standard column and option 5 is our tallest.

Should you need a greater height of lift, you can add a pedestal or socket extension, subject to restrictions [see page 56-59 for further information].

For our standard **T**DAVIT product codes refer to the product code list on page 30 for any custom requests please contact your REID representative.

To request a quote and any additional information on sockets or accessories such as winches and chain hoists, contact your local reseller or your REID representative. See our accessories on page 42.

▶ **PORTA**DAVIT®

Can be rotated 360° under
a full load

Clean powder-coated finish
for increased wear resistance

Can be operated and assembled
by one person, no tools required

Incredibly lightweight
– it weighs just 24kg

This product is patented

Our **PORTA**DAVIT is a rapid deployable, lightweight solution that offers a WLL of up to 1000kg and can be easily rotated 360° under a full load. The system can be operated by just one person and can support both goods and personnel lifting.

Key features

- EN795:2012 Certified
- ATEX Certified
- Can support goods and personnel lifting;
  - Goods WLL of up to 1000kg
  - Personnel WLL of up to 300kg
- Ease of assembly with the use of just one pin, no tools required
- Can be rotated 360° under a full load
- Engineered with easy radius adjustment
- Engineered designs and bespoke sections reduce weight, providing lightweight portability

Configurations

The **PORTA**DAVIT is available in a range of standard configurations. It can also be customised in line with specific requirements and interchangeable components (subject to WLL rating).

500KG - 1000KG WLL   **1 PERSON ASSEMBLY**   **24KG - 39KG**   **EN795 CERTIFIED**   **ATEX CERTIFIED**

PORTADAVIT QUANTUM®

Available in a winched option

Available in a strop option

Engineered designs and bespoke sections reduce weight, providing lightweight portability

Ease of assembly with the use of just one pin, no tools required

This product is patented

* See pages 44-56 for our range of fixed sockets and portable bases.

Our **PORTA**DAVIT QUANTUM is a rapidly deployable, lightweight solution to heavy lifting and lowering of goods and personnel. Weighing from just 18.5kg when fully assembled, it can be manually operated by one person while maintaining a lifting capacity of up to 600kg.

Key features

- EN795:2012 Certified
- ATEX Certified
- Can support goods and personnel lifting;
  - Goods WLL of up to 600kg
  - Personnel WLL of up to 300kg
- Ease of assembly with the use of just one pin, no tools required
- Can be rotated 360° under a full load
- Designed with a universal kingpin which is compatible for all REID sockets
- Easy radius adjustment
- Engineered designs and bespoke sections reduce weight, providing lightweight portability

Configurations

The **PORTA**DAVIT QUANTUM is available in a strop and winched version for use with a range of lifting equipment.

600KG WLL   **1 PERSON ASSEMBLY**   **FROM 18.5KG**   **EN795 CERTIFIED**   **ATEX CERTIFIED**

Davit **Accessories**

TDAVIT **Winch Brackets**

We offer a wide range of winch brackets for common goods and personnel winches and retrieval fall arrest devices. The winch brackets can be attached the column of the **T**DAVIT to support in the application required.

Product Code	Description
RAWB000001	Winch Bracket Pfaff LB900/1200 to Porta-Davit & T-Davit
RAWB000203	Winch Bracket Pfaff LB350 to Porta-Davit & T-Davit
RAWB000136	Winch Bracket CWL200&CLW301 to Porta-Davit & T-Davit
RAWB000137	Winch Bracket Harken Lockhead/40.2 to T-Davit
RAWB000016	Winch Bracket kit G-Winch to Porta-Davit & T-Davit
RAWB000012	Winch Bracket SalaliftII/Sealed blok to PortaDavit & T-Davit
RAWB000622	Winch bracket Checkmate personnel winch to Porta-Davit & T-Davit
RAWB000135	Winch bracket Checkmate FABXR/FABXLR to T Davit [Additional RAFP bracket required]

PORTADAVIT **Winch Brackets**

We offer a wide range of winch brackets for common goods and personnel winches and retrieval fall arrest devices. The winch brackets can be attached the backstay of the **PORTA**DAVIT to support in the application required.

Product Code	Description
RAWB000001	Winch bracket Pfaff LB900/1200 to Porta-Davit & T-Davit
RAWB000136	Winch bracket CWL200&CLW301 to T-Davit & Porta-Davit
RAWB000016	Winch bracket G-Winch to Porta-Davit & T-Davit

Rotational Handle

Our rotational handle can be fitted to the column of the davit to aid in the rotation under load. The rotational handle can be fitted to our **T**DAVIT and **PORTA**DAVIT QUANTUM systems. The rotation should be done in a controlled manner.
Product Code	Description
RATD000006	Rotation Handle to suit T-Davit and PDQ

❯ **PORTA**DAVIT QUANTUM **Winch Brackets[Column]**

We offer a wide range of winch brackets for common goods and personnel winches and retrieval fall arrest devices. The winch brackets can be attached the column and backstay of the **PORTA**DAVIT QUANTUM to support in the application required.

❯ **PORTA**DAVIT QUANTUM **Winch Brackets[Backstay]**

We offer a wide range of winch brackets for common goods and personnel winches and retrieval fall arrest devices. The winch brackets can be attached the column and backstay of the **PORTA**DAVIT QUANTUM to support in the application required.

Product Code	Description

Bases & Sockets

We offer a wide range of portable bases, sockets and extensions which offer full versatility and compatibility with our Davit range, all of which are designed to make light work of lifting and lowering.

PORTABASE® H Base

Levelling feet for safe, secure operation on uneven ground

Can support goods and personnel lifting

Adjustable legs to allow for an increased radius

Anodised for increased corrosion resistance

Compatible with REID's **T**DAVIT and **PORTA**DAVIT QUANUTUM

REID **PORTA**BASE®

Engineered designs and bespoke sections reduce weight, providing lightweight portability

The **PORTA**BASE H Base is a three piece, portable system which can be easily broken down for transportation.

Expertly engineered to provide full use and compatibility with the **T**DAVIT and **PORTA**DAVIT QUANTUM providing maximum flexibility where the installation or use of a fixed socket is not possible.

The **PORTA**BASE H Base enables our Davit products to be used for lifting goods up to 600kg, as well as providing access and egress for confined space and work at height tasks, including as an anchor point for fall arrest scenarios.

❯ Key features

- ❯ EN795:2012 Certified
- ❯ Can support goods and personnel lifting;
  - ❯ Goods WLL of up to 600kg
  - ❯ Personnel WLL of up to 300kg
- ❯ Breaks down in to 3 components for ease of transportation
- ❯ Designed for ease of assembly using pins, with no bolted sections or the need for tools
- ❯ Detachable legs for ease of transportation
- ❯ Levelling feet designed to support the system to function correctly on uneven ground
- ❯ Compatible with the use of **T**DAVIT and **PORTA**DAVIT QUANTUM
- ❯ Clean, anodised finish for increased corrosion resistance
- ❯ Engineered designs and bespoke sections reduce weight, providing lightweight portability

>PORTABASE® Counterbalance

Detachable folding basket with integrated swivel-locking castors

Levelling feet for safe, secure operation on uneven ground
Anodised for increased corrosion resistance

Adjustable legs to allow for an increased radius

Compatible with REID's **T**DAVIT and **PORTA**DAVIT QUANUTUM

Engineered designs and bespoke sections reduce weight, providing lightweight portability

Swivel castors for increased portability

The **PORTA**BASE Counterbalance is a five piece, portable system which can be easily broken down for transportation.

Expertly engineered, the system is compatible with the **T**DAVIT and **PORTA**DAVIT QUANTUM providing maximum flexibility where the installation or use of a fixed socket is not possible. The product is quick and easy to set up with no tools required.

The **PORTA**BASE Counterbalance enables our Davit products to be used for lifting goods up to 600kg, as well as providing access and egress for confined space and work at height tasks, including as an anchor point for fall arrest scenarios.

Key features

- EN795:2012 Certified
- Can support goods and personnel lifting;
  - Goods WLL of up to 600kg
  - Personnel WLL of up to 300kg
- Breaks down in to 5 components for ease of transportation and stowage
- Designed for ease of assembly using pins, with no bolted sections or the need for tools
- Detachable legs and foldable basket for ease of transportation
- Levelling feet designed to support the system to function correctly on uneven ground
- Integrated swivel castors, as standard
- Compatible with the use of **T**DAVIT and **PORTA**DAVIT QUANTUM
- Clean, anodised finish for increased corrosion resistance
- Uses 20kg hand weights for the basket, reducing manual handling risks
- Engineered designs and bespoke sections reduce weight, providing lightweight portability

Configurations

Height adjustable feet can be fitted to the **PORTA**BASE Counterbalance basket, providing an adjustment of 230mm. For more information contact REID.

PORTABASE® Counterbalance Trailer Hitch

Trailer Hitch Connector designed for parrallel or perpendicualr attachment to a vehicle.

Levelling feet for safe, secure operation on uneven ground

Anodised for increased corrosion resistance

Adjustable legs to allow for an increased radius

Compatible with REID's **T**DAVIT and **PORTA**DAVIT QUANUTUM

Engineered designs and bespoke sections reduce weight, providing lightweight portability

Swivel castors for increased portability

The **PORTA**BASE Counterbalance Trailer Hitch is a portable system which can be easily broken down for transportation. The product is quick and easy to set up with no tools required.

The system is compatible with the **T**DAVIT and **PORTA**DAVIT QUANTUM providing maximum flexibility where the installation or use of a fixed socket is not possible. This system has been designed to attach to a vehicle with a tow bar such as a Van or Truck. When in use with our Davits, it can be used for lifting goods up to 450kg as well as providing access and egress for confined space tasks.

Key features

- EN795:2012 Certified
- Can support goods and personnel lifting;
  - Goods WLL of up to 450kg
  - Personnel WLL of up to 225kg
- Breaks down in to 6 components for ease of transportation and stowage
- Incredibly lightweight structure with full system weighing 45kg
- Designed for ease of assembly using pins, with no bolted sections or the need for tools
- Levelling feet designed to support the system to function correctly on uneven ground
- Integrated swivel castors, as standard
- Compatible with the use of **T**DAVIT and **PORTA**DAVIT QUANTUM
- Easy connection to a van or truck weighing 2000kg
- Can be connected parallel or perpendicular to the vehicle
- Clean, anodised finish for increased corrosion resistance
- Engineered designs and bespoke sections reduce weight, providing lightweight portability

Configurations

If you have already own a **PORTA**BASE Counterbalance, the Trailer Hitch Connector can be bought separately [please contact REID for further information].

SOCKETS & EXTENSIONS

We manufacture a range of standard sockets, socket extensions and pedestals that are fully compatible with our davit range which can be used for goods lifting, personnel lifting and in many cases fall protection applications. They are also suitable for a variety of structures [subject to engineer approval]. Available in aluminium, galvanised steel and stainless steel. We can also manufacture customised sockets and pedestals on request. Our socket extensions are designed to provide additional height of reach over obstacles, protective rails or walls.

Sockets

Our sockets are fully compatible with our davit range and are suitable for a variety of structures. Available in aluminium, galvanised steel and stainless steel.

We offer sockets with two kingpin diameter sizes [65mm and 95mm] to fit our range of davits.

Our socket options includes:

> **Top Mount**

> **Side Mount**

> **Bridge Mount**

> **Flush Mount**

We can also offer customised sockets, which are bespoke made and developed for non-typical installations. To discuss your requirements with us, contact us on enquiries@reidlifting.com.

Sockets

Flush Mount   **Bridge Mount**   **Side Mount**

Top Mount
Height of Lift:
+264mm

Our sockets are part of a fall protection and personnel lifting system, which includes a REID Lifting Davit. Only sockets manufactured by REID Lifting may be used with our Davit's. Failure to use REID sockets will invalidate any product certification and warranty and exposes the user to unnecessary and unwarranted risk. Before fixing always consult a structural engineer to confirm suitability for the loads that will be imposed during use, allowing for the required safety factors.

Pedestals

Our pedestal sockets are similar to top mount sockets and are manufactured from lightweight aluminium. Our pedestals are designed to provide additional lift height or reach over obstacles, protective rails or walls.

We offer pedestals which are suitable for use with our 65mm kingpin davit range.

Our pedestals are available in three standard sizes:

> **500mm**

> **800mm**

> **1100mm**

They can also be customised to meet our customers' specific requirements.
To discuss your requirements with us, contact us on enquiries@reidlifting.com.

Socket Extensions

Our socket extensions are designed to provide additional lift height or reach over obstacles, protective rails or walls for 65mm socket/kingpin davits. Made from lightweight aluminium alloy, with handles for lifting and carrying, they're designed to be easy to use. Simply insert them into the existing socket and assemble a standard davit, as normal, using the extension as its socket.
Our socket extensions are available in three standard sizes:

> **500mm**

> **800mm**

> **1100mm**

They can also be customised to meet our customers' specific requirements.

*When fixing sockets to structures, customers must always seek the guidance of a suitably qualified engineer to ensure that the structure is able to support the required loads.

** Socket extensions are only suitable to be used with our socket range and cannot be used with a pedestal. For further information please contact your REID representative.

Side Mount Socket

- Suitable for use with our full davit range
- EN795:2012 certified and meets requirements of IRATA ICOP
- Galvanised Steel Side Mount[SSMG0500V2] meets requirements of BS8610:2017
- Secured using 4nr. M16 anchors [not supplied]
- Suitable for mounting on the side of concrete or steel structures
- A brace plate can be supplied for thin-walled concrete

Product Code	Description	Material	Weight [kg]	Diameter [mm]
SSMG0500V2	Socket Side Mount 65 GMS	Galvanised Steel	13	65
SSMS0500V2	Socket Side Mount 65 316SS	Stainless Steel	17	65
SSMA0500	Socket Side Mount 65 Aluminium Anodised	Aluminium	6	65
SSMG1000	Socket Side Mount 95 GMS	Galvanised Steel	30	95
SSMS1000	Socket Side Mount 95 316SS	Stainless Steel	29	95

Bridge Mount Socket

- Suitable for use with 65mm REID davits
- EN795:2012 certified and meets requirements of IRATA ICOP
- Secured using 4nr. M16 anchors [not supplied]
- Suitable for bolting into steel structures
- Designed to fit open mesh grating or flush with structural steel work

Product Code	Description	Material	Weight [kg]	Diameter [mm]
SBMG0500	Socket Bridge Mount 65 GMS	Galvanised Steel	19	65
SBMS0500	Socket Bridge Mount 65 316SS	Stainless Steel	19	65
SBMA0500	Socket Bridge Mount 65 Aluminium Anodised	Aluminium	7	65

Flush Mount Socket

- Suitable for use with our full davit range
- EN795:2012 certified and meets requirements of IRATA ICOP
- Suitable for resin fixing into existing concrete
- Complete with cover and re-bars, for casting into concrete

Product Code	Description	Material	Weight [kg]	Diameter [mm]
SFMG0500	Socket Flush Mount 65 GMS	Galvanised Steel	5	65
SFMS0500	Socket Flush Mount 65 316SS	Stainless Steel	4	65
SFRG0500	Socket Flush Mount Resin Bond 65 GMS	Galvanised Steel	5	65
SFRS0500	Socket Flush Mount Resin Bond 65 316SS	Stainless Steel	4	65
SFMG1000	Socket Flush Mount 95 GMS	Galvanised Steel	9.5	95
SFMS1000	Socket Flush Mount 95 316SS	Stainless Steel	9.5	95
SFRG1000	Socket Flush Mount 95 Resin Bond GMS	Galvanised Steel	9.5	95
SFRS1000	Socket Flush Mount 95 Resin Bond 316SS	Stainless Steel	9.5	95

Socket Extensions

- Can be used with 65mm REID davits combined with 65mm fixed sockets
- EN795:2012 certified up to 1600mm radius
- Meets requirements of IRATA ICOP up to 1200mm radius
- Integrated carry handles
- Safe use features
- Maintenance free
- Manual handling compliant

Product Code	Description	Material	Weight [kg]	Height [mm]
SE0500-0500	Socket Extension 500	Aluminium	12	500
SE0500-0800	Socket Extension 800	Aluminium	15	800
SE0500-1100	Socket Extension 1100	Aluminium	17	1100

Socket Pedestals

- Suitable for use with 65mm REID davits
- EN795:2012 Certified up to 1600mm radius
- Secured using 4nr. M16 or M20 anchors [not supplied]
- Meets requirements of IRATA ICOP up to 1200mm radius
- Safe use features
- Maintenance free
- Manual handling compliant

Product Code	Description	Material	Weight [kg]	Height [mm]
SP0500-0500	Socket Pedestal 65 500mm	Aluminium	17	500
SP0500-0800	Socket Pedestal 65 800mm	Aluminium	19	800
SP0500-1100	Socket Pedestal 65 1100mm	Aluminium	19	1100

PORTABASE Trench Mount Socket

- EN795:2012 Type B certified
- Suitable for use with Davits up to a radius of 1200mm
- Fall arrest capacity – 1 user
- Personnel capacity up to 250kg*
- Goods capacity up to 500kg*
- Galvanised steel construction and powder coated finish
- Designed for use in trenching and shoring applications subject to structural validation

*Dependant on Davit Operational Arc [See Assembly & Operation Guide for further information]

Product Code	Description	Material	Weight [kg]	Diameter [mm]
PBTM00001	Porta Base Trench Mount - Max 1200mm Radius	Galvanised Steel	25	65

* For detailed product drawings see our socket product overview.

Customisation

At REID Lifting, we understand the uniquely challenging lifting requirements our clients are faced with which is why we offer a range of customised solutions to ensure that their operational objectives are met, effectively and safely.

From custom designed gantries and davits through to sockets and accessories, our highly experienced team of engineers can support in the design and development of bespoke solutions for niche applications.

› **Extended range**

Alongside the products highlighted in this brochure, we also offer a wider range of products, from an extensive **PORTA**GANTRY range through to variant models of the popular **T**DAVIT.

For more information about our extended range and customised solutions, please contact REID Lifting representative or email **enquiries@reidlifting.com**
